In-charge Message

Education is a life long learning process and our mission therefore is to provide a learning environment to our students as learners. Our distinctive academic programmes and innovative teaching methodologies encourage students to develop critical-thinking and to develop key personal and social values, to take ownership of his/her choices and to set goals to realize their own unique potential.

At Oaktree kidz International School we aim to empower our students to grow as individuals with strong open discerning minds with an international perspective, preparing them to make a mark in the world. Here at Oaktree kidz International School we value igniting the spark of creativity and curiosity in our students and we strive to provide an environment that is basically sacred, and has a framework of discipline that is flexible yet supportive, a freedom that allows students to learn even from their mistakes and to develop into person moulded by the correlatives of freedom and responsibility.
